Specific License Terms applicable to
the Agreement for Catalyst IM

These Specific Terms are applicable to "**Catalyst Integration Manager"**, which may further be referred to as "**Catalyst IM**", or "**Cat-IM**".

These Specific Terms are also available via the following link:

https://www2.intellecteu.com/files/catim_specific_license_terms.pdf

1. **Definitions.** For the purpose of these Specific Terms the following terms shall have the meanings set forth below:

"**Permitted Use**" means the defined scope of use of the Software by Licensee and/or any Licensee Representative for the benefit of Licensee. The Software will be programmed by Licensor to perform only those operations, as specified in the PO. Any extension of the Permitted Use shall be agreed in writing and may affect License Fee.

"**Software**" means the executable, object code version of the Catalyst IM, being a cloud-agnostic, user-friendly Integration tool that eases integrations between companies' back-office systems, DLT networks and payment rails. The solution speeds up the deployment of integration connectors and provides enterprise-grade features such as fault-tolerance, disaster recovery, monitoring, and auditing. It provides a set of connectors, translations developed by the Licensor for financial institutions to connect their back-office systems to a multitude of applications, databases, and payment rails.

"**Software Installation**" shall mean the installation and configuration of the Licensed Software on the premise of the Licensee, hands-on explanation; testing assistance; Production preparation assistance. Any Additional Support services requested by Licensee after such Software Installation are not included in the Software Installation Fee. Such services shall be available to Licensee at a certain fee under a separate written agreement.

2. **License.**

2.1 **License Grant.** Subject to the terms, conditions and restrictions set forth in this Agreement, Licensor herewith grants to Licensee to use the Software within the scope of Permitted Use, during the agreed Term **as agreed in an executed PO**. The Software shall be used by Licensee only and is non-sublicensable.

2.2 **Scope of Licensed Access and Use.** Subject to the Subsection of these Specific Terms titled "License Grant", Licensor shall make available the Software to Licensee with necessary instructions (guidelines) and documents on installing (deployment) of the Software, if agreed in the PO, Licensor may provide Software Installation services to Licensee. Licensee shall deploy the Software and perform an acceptance test to check if it's running correctly. Licensor shall provide any necessary Additional Support (as defined in the SLA) at additional fee only upon request from the Licensee. Any services of Licensor connected with deployment of Software and/or any additional developments shall be billed separately if requested by the Licensee.

2.3 **Open Source Components.** The Software includes Open Source Components licensed under Open Source Components listed in **Exhibit A** attached below. Any use of the Open Source Components by Licensee is governed by, and subject to, the terms and conditions of the Open Source License(s). The Licensee acknowledges that any Open Source Components of the Software are expressly subject to the disclaimer in Section of the GT titled "DISCLAIMER OF WARRANTIES", The Licensee shall indemnify and hold the Licensor harmless against any Losses which it may suffer or incur as a result of the Licensee's breach of any Open Source License.

2.4 **Security Measures.** The Software may contain technological measures designed to prevent unauthorized or illegal use of the Software. Licensee acknowledges and agrees that:

(a) Licensor may use these and other lawful measures to verify Licensee's compliance with the terms of this Agreement and enforce Licensor's rights, including all Intellectual Property Rights, in and to the Software. For the avoidance of any doubts, such technological measures shall not have any adverse effects on Software functionalities and the information collected by such technological measures shall be limited to the relevant information on the usage of the Software;

(b) Licensor may deny any individual access to and/or use of the Software if Licensor, in its reasonable discretion, believes that person's use of the Software would violate any provision of this Agreement; and

(c) Licensor and its Representatives may collect, maintain, process and use diagnostic, technical, usage and

related information, including information about Licensee's computers, systems and software, that Licensor may gather periodically to improve the performance of the Software or develop Patch Updates, such information shall be limited to the relevant information on the usage of the Software.

2.5   No Distribution. AS GENERAL RULE NOTHING IN THIS AGREEMENT CONVEYS ANY RIGHTS TO DISTRIBUTE THE LICENSE GRANTED BY LICENSOR TO LICENSEE TO ANY THIRD PARTY, UNLESS OTHERWISE AGREED IN THE PO.

If distributed Software is subject for sub-licensing (as identified in the PO) it shall be used for the Licensee customers' internal use, and not for resale or redistribution by such Licensee customers.

3.   Support Services. Licensor will provide "Support" services directly to Licensee for the Software in accordance with SLA (if applicable according to the PO). Licensor may amend services provided under SLA from time to time, provided any amendment shall not materially degrade the service levels agreed by Parties on the Effective Date. For the avoidance of doubt, SLA applies directly to Licensee, rights and obligations under SLA could not be forwarded by Licensee to any third party.

4.   Fees and Period.

4.1   Fees. Fees shall be agreed by Parties individually and governed by the PO.

4.2   Review of Fees. Licensor reserves the right to review the Fees unilaterally on an annual basis which shall become effective by signing a separate document by both Parties.

Licensor may terminate the Agreement at any time on 30 days prior written notice to Licensee if Licensee disagrees with the reviewed Fees as mentioned above effective on the end date of the last paid License term.

4.3   Schedule of Fee Payment. Payment may be made monthly, quarterly or annually, depending on conditions and the agreement of the Parties set forth in the PO.

5.   Licensee Data. All data created, displayed, transferred or distributed by Licensee using Software, and all right, title and interest therein are and will continue to be solely owned by Licensee during and after the expiration or termination of this Agreement.

Licensee owns all right, title and interest to Licensee Data solely and shall have sole responsibility for legality, reliability, integrity, accuracy and quality of the Licensee Data.

6.   ADDITIONAL DISCLAIMER. LICENSOR DOES NOT CONTROL THE PUBLIC INTERNET, AND IN ACCORDANCE WITH THESE SPECIFIC TERMS:

(A)   CANNOT GUARANTEE OR WARRANT THE SECURITY, ACCURACY OR CONTENT OF ANY INFORMATION, SYSTEMS OR ACCOUNTS, AND THE DATA;

(B)   CANNOT BE HELD RESPONSIBLE FOR THE THEFT, DESTRUCTION OR INADVERTENT CORRUPTION OR DISCLOSURE OF ANY OF LICENSEE'S OR ITS CUSTOMERS' DATA OR INFORMATION;

(C)   CANNOT GUARANTEE ANY INTERNET LEVEL OF PERFORMANCE, OR THAT THE LICENSEE'S DATA WILL NOT BE LOST DURING TRANSMISSION OVER THE INTERNET, EVEN WHEN CONNECTED. THEREFORE, LICENSOR HEREBY DISCLAIMS ANY AND ALL GUARANTEE OF INTERNET PERFORMANCE, INTERNET SERVICE INTERRUPTIONS, INTERCEPTIONS, DEGRADATION, ERRORS, DELAYS, DEFECTS, LOSS OR THEFT OF DATA WHICH COULD OCCUR DURING TRANSMISSION OF ANY FORM OF DATA EXCHANGE BETWEEN LICENSEE'S INTERNET.

7.   Money Back Guarantee. In case the Licensee is unsatisfied with the Software, the Licensee can terminate the use of Software granted under this Agreement within 30 calendar days from the Effective Date stated in the PO and receive a refund of the License Fee as agreed in the PO between the Parties ("Money Back Guarantee"). Only the first purchase of the Software's license by the Licensee is eligible for the Money Back Guarantee. For avoidance of any doubts, Integration Package fees, Support Fees for the first month and/or Cloud Infrastructure costs are non-refundable. The Licensor reserves the right to not issue the refund on Money Back Guarantee basis if the Licensee breached any of its representations, warranties and/or obligations under this Agreement. Once the refund is initiated, Licensee is obligated to terminate the use of Software and delete all related files, materials and/or documentation made available by Licensor. Any further use of the Software will be regarded as unauthorized. Money Back Guarantee payment shall be made within 30 calendar days from the date of Money Back Guarantee request made by the Licensee in the currency established in the PO.

The request to exercise the right under this Section "Money back guarantee" shall be submitted in writing to Licensor's contact email as specified in the PO Section titled "Notices".

These Specific Terms are agreed and accepted by Licensee:

EXHIBIT B
Software Release Management Document

Introduction

This document presents the release management process of Catalyst IM. The Catalyst Integration Manager adheres to specific semantic release versioning. Given a version number "**MAJOR.MINOR.PATCH**", the:

MAJOR version is incremented when the update includes incompatible API changes,

MINOR version is incremented when the update includes added functionalities in a backward-compatible manner, and

PATCH version is incremented when the update includes backward-compatible bug fixes.

In the next subsections, we present the release-management and support for Catalyst Integration Manager.

Release management

Catalyst Integration Manager leverages various third-party API services. Licensor's standard process entails (1) analysis of the features and updates to be developed, (2) development, (3) QA, (4) staging, and (5) production before pushing the update to (6) the general availability of Catalyst Integration Manager. At its core, the Licensor aims to always offer a stable version of Catalyst Integration Manager to the Licensee, and this is taken into consideration with the Software's release management.

The core platform

The core platform of Catalyst Integration Manager will benefit from periodic updates not directly related to the integration flows it supports. The updates planned to be included into each next release for this stream will be communicated to the Licensee in advance.

Support guarantees

Licensor will always support the latest version of Catalyst Integration Manager, and will support older MAJOR versions (those that are not the latest generally available) for up to 12 months, and older MINOR versions for up to 6 months. LTS versions of Catalyst Integration Manager will be supported for at least 2 years.

Licensor will provide limited support for older versions of Catalyst Integration Manager, offering advice on issue identification, and guidelines on migrating to the new version. Any migration assistance is available through our professional services team and shall be paid separately by Licensee. Additionally, extended lifetime support services are available (i.e. until the "end of service life" of the Software). The Support Fee and License Fee associated hereto are to be decided upon between the Licensor and the Licensee in the PO.

Any maintenance releases (PATCH releases) made generally available should be installed by the Licensee as soon as reasonably possible. Any version of the Software that falls under support from Licensor will benefit from maintenance releases. Each maintenance release will be accompanied by a severity level and an advisory on when to install. Please refer to SLA for specific timelines on issue resolution times.
